Pig Brand
The only one recommended by Physician because of its strengthening and very nutritious qualities.
The results of its use in cases of debility induced by accidental causes are marvellous. This Stout becomes assimilated with the blood in a more efficacious manner than any solids do, and it thus fortifies exhausted organisms. In cases of maternity its use is of the highest importance, for which this brand is universally recommended by the most distinguished members of the Faculty.

NOTE—Beware of an imitation, being a copy of the Washington Morton registered label, which may be distinguished by the name Morton being changed to Mirton. The forgery of Parry & Co.'s signature is very badly done, but at a short distance it may easily pass as genuine. The general appearance of this forgery is so very similar to the genuine, that a careful examination is necessary to detect the fraud. Once the wine is tasted, the deception is quite apparent.

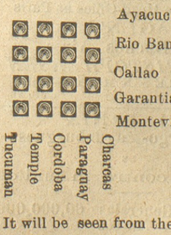
THE NEW CAPITOL.

Everything in the Plate marches in seven-leagued boots. Progress claims the country as her own, and hardly have we laid aside the great map of the nation, pin-marking the territory of Nauquen and Nahuel Huapi, when new events call for the map of this, city to trace out the squares and blocks to be expropriated for the new National Government House.

The highest spot in the city and its widest street, Calle Callao, have been selected as the site. The plans of our new White House are perfected and before the Minister of the Interior. In these days an expropriation law will be laid before Congress by the Government, and although it will take 4 or 5 years to complete the edifice, the property will be at once expropriated and thrown into a large, handsome square which will always afford the citizens a pleasant promenade even whilst the buildings of the Capitol are in course of erection.

The site to be expropriated will extend from the corner of Calles Montevideo and Tucuman to the corner of Calles Ayacucho and Tucuman on the South, and on the North from the corners of Calles Ayacucho and Charcas. The following croquis will better explain to the reader the locality—



It will be seen from the foregoing that the new park, with the buildings of the Capitol, will occupy an area of 16 of our city blocks, in a part of the town where property is not very high, and many of the blocks referred to have but very few buildings or houses, which will make the property all the more desirable for the purpose.

The present Government House, or Casa Rosada, will be occupied by the various offices and departments belonging to the nation, and which are at present scattered over the city, paying very high monthly rents, such as the Supreme Federal Court, the Comisaria de Guerra y Marina, Contribucion Directa &c., and in the Capitol will be the offices for the President and his Ministers, Congress, State Library, Patent Office &c.

When in possession of further facts respecting this magnificent scheme, we shall treat further on the matter. We only advert to it now with a view to give our readers an idea of what is going on, and which, in all probability, will be carried out this Congress.

MUNICIPAL REFORM.

In spite of the croakers, the numerous reforms incidental to the federalization of this city, and which we have on many occasions referred to, are coming rapidly to the front, and will probably be accomplished facts before the cavillers have done denying their feasibility. Yesterday was prolific in important schemes, and amongst them is that laid before Congress on Wednesday by Dr Del Viso, Minister of the Interior, for the reorganization of the civic government of the Capital of the Republic. Dr del Viso has done his work cleverly, but gives Government and Congress far too much interference in city affairs. Fancy the Queen nominating the Lord Mayor of London or Dublin, or the consent of Parliament being required to engage a Municipal bookkeeper or cashier!

The Bill presented by Dr Del Viso is very long, but the following epitome will show our readers its main points:—

Corporation to consist of two Councils—one Deliberative, the other Executive, to consist of one person—the Lord Mayor, or, as he is to be called in future, the Governor of the City. The President of the Republic, in accord with the Senate, will name him, but the former can remove him without the latter's consent.

The Governor will have the filling of the other Municipal posts, subject to the President's approval.

The Governor's salary will be 700 pats, the Secretary's 400, and the Deliberative Council will fix the others.

This Council will consist of two members from each parish, or ward, to be elected direct by the citizens by ballot.

The 'mesas receptoras' will consist of twenty of those who pay the most taxes in each parish.

Elections to take place annually on the last Sunday of November, between 9 a.m. and 4 p.m.

Next day the Municipal Council will decide on the validity of the elections, at a single sitting, and call another election if required.

Corporation to be installed on New Year's Day, members being elected for two years, half of them being replaced every year, the first time by lot, and afterwards in order of succession. An absolute majority to decide all questions.

The Deliberative Council will elect its employees.

The Accountant, Treasurer, &c, will be named with the sanction of Congress.

The Council will pronounce on the election of its members, without faculty of revision.

Its internal regulations will be the same as those of the parliaments.

The Council will vote the supplies and estimates.

The Council has full power to impose local taxes and will receive also 10 per cent of the Contribucion Directa of the city.

It is authorized to create a Public Lottery, to meet its obligations.

If the Lottery be officially managed, it must be by a Committee of citizens whom Congress must approve of.

Council will attend to service of its Bonds through Board of Public Credit.

Council can sell city properties: and has absolute control of public works and streets: can raise, by two-thirds votes, loans not exceeding 20 per cent of its income.

Council can consolidate present debt into 6 per cent Bonds, with 1 per cent amortization, with consent of Congress. A City Public Credit Department will attend these debts, the President of which must be a member of the Council.

Council to have same powers as regards Public Safety and Health as former Municipalities.

Congress can revise the acts of the Council.

Governor to promulgate and carry out Council's decrees, and lay city Budget before Congress: he will also legally represent the district and collect taxes, &c.

He can veto the Council's acts and be in turn interpellated by it.

The property and revenue of the Federal district can not be embargoed nor seized.

The city election Law to be the same as the National.

Can be used with COLD WATER. Sole Agents MOORE & TUDOR. Maypu 95 and 127. Beware of imitations and falsification

SUGAR PRODUCTION IN MISIONES.

We have received the following letter concerning a proposed joint-stock company, to be called 'La Sociedad Anonima del Ingenio Sta. Maria del Alto Uruguay,' which is being formed under the management of Messrs. F. Mendez and Co. of No 222 Calle San Martin, to work a concession obtained by Messrs Gelling and Morrish, two English engineers, who have had charge of sugar factories in Tucuman, and we understand that copies of the prospectus can be obtained from Mr Gelling at the Hotel Argentino. The writer of the letter is Mr V. W. Chapman of the house of Messrs. Fawcett, Preston and Co, Engineers, of London and Liverpool :—

77 Corrientes, 10th May, 1881.

To the Editor of the *Standard*,

Sir,

I beg you to look over the enclosed Prospectus of a Company which proposes to erect a sugar manufactory in the upper Uruguay.

After a careful examination of the conditions under which the manufacture of sugar from the sugar cane is carried on in Tucuman and Santiago del Estero, and those under which it is practicable in the Argentine Misiones, I have no hesitation in saying that it can be made much more profitable in the latter than in the former.

My reasons, for the most part, are given in the enclosed Prospectus, but should you desire it, I shall be glad to give you further and more detailed information on the subject. Salta, Jujuy, Tucuman and Santiago del Estero, it may be presumed, will continue to supply their own local demand for sugar, and that of their immediate neighbourhood; but the lands in the Alto Uruguay are much better sugar-cane lands than those of Tucuman and Santiago, and the greater part of the consumption of the republic will be provided by them, and by a smaller suitable area, on the upper Parana, certainly much more cheaply than would be possible were the sugar brought from the Interior, and perhaps as cheaply as it could be imported, free of the existing heavy duty of 25 per cent 'ad valorem' (which to the consumer may be taken to represent nearly 35 per cent)

My attention has been called to a letter from a correspondent of the *Standard* in Rosario, which appeared in a late issue, and I venture with reference to certain statements therein, which uncorrected might mislead and have a prejudicial effect on the progress of Misiones, one of the richest and most neglected parts of the Republic, to make the following remarks :—

Irrigation is not necessary to obtain a yearly crop of sugar cane where rains fall principally at that period of the cane's growth, when they are beneficial—and this is the case in Missiones, and is not the case in Tucuman.

Again it is also completely erroneous to suppose that for the purposes of profitable manufacture, a cane plantation lasts fifteen, twenty, and thirty years in Tucuman. The fields may exist that time, but as affording raw material for profitable sugar manufacture, their average existence is not over three years; and all over Cuba—the best sugar land in the world, and having the best of all climates—five to six crops are usually expected by the most careful planters, and although I have frequently seen cane-fields go twenty five years without replanting, I have always known that the plantes would have replanted them, had he had means.

The significant fact, however, that the average yield of cane per acre in Tucuman is about 17 tons, whereas in Barbadoes it is 36, (there is in Barbadoes almost garden culture), in Cuba 30 to 35, (I have myself obtained 51 tons), in Egypt 22, and in Brazil 25 to 30, shews that Tucuman is not a privileged sugar cane country, and any one who has a practical knowledge of cane, would know this, by merely riding through the fields, and seeing that the full grown cane is rarely over five feet high, and sometimes less, just as he would know that the Misiones lands are good by seeing that the cane is usually nearly seven feet, and thicker than the less favoured Tucuman plant.

In Santiago the cane is better, the land and climate being superior to that of Tucuman, and in Salta and Jujuy there is very good cane indeed.

As to the statement about the superior quality of sugar made from Tucuman cane, this is a mere matter of more or less careful and properly conducted manufacture, *all pure sugar from all cane, good or bad being exactly the same in substance, appearance, and flavour.*

Some canes give juice more easily worked and more profitably worked than others, and sometimes it pays to make impure sugar, or bad sugar, better than to make good sugar, but the finest sugar can be made anywhere in the world from poor cane, with good work and good apparatus.

The average per centage of sugar in the juice in Tucuman is 14½, and it is expected, and is nearly certainly ascertained that in Misiones the average per centage will be 18, nearly 25 o|o more. The average yield of juice from the canes when well ground in Tucuman, is 60 o|o to 62 o|o of their weight, and this is the average yield in all parts of the world, saving in the case of exceptionally dry cane; but an acre of land in Misiones will give, an average quantity of raw material, containing 5 4|5 tons of saccharine matter, of which the yield in crystals and spirit will depend on the care and skill with which the manufacturing process is performed—whereas an acre of land in Tucuman gives an average quantity of raw material containing only 1½ tons of saccharine matter, of which the yield in the same marketable products will depend on the same conditions. As labour is obtainable in Misiones at rates as low as those of the interior, and carriage to Buenos Aires is only $f14 per ton, it is deducible from these and the foregoing considerations, that it will be prudent to try sugar making in Misiones, generally on the Uruguay side, and on a portion of the Parana side, on a large scale; and there would appear to be room for considerable hesitation in investing capital in a sugar plantation in Tucuman or Santiago del Estero, which can hardly fail to find themselves sooner or later, in a similar position, to that of the rich valleys of Cuatla and Cuernavaca in Mexico, where the planters being at too great a distance from a port, to export at a profit, (except, when the price of sugar is abnormally high,) and having found that the production on the coast and in more accessible points of the interior has been able to supply cheaper than they can do, all but the demand of their immediate neighbourhood, have reluctantly but unavoidably agreed to reduce their out put, preferring to make a moderate quantity of sugar and sell it at good prices, to cutting one another's throats by making a large quantity and selling it at poor prices; and this it may be presumed, would be the view of the case that all prudent investors would take—a prudent investor being not generally a person inclined to sacrifice his own interests for those of the community at large.

I have the honour to be Sir
Your obedt. servant

EDITOR'S TABLE.

Yesterday was a day of 'novedades.' The new Municipal Law was not expected so soon. We give the substance of it in another column. It is a decided improvement on the old system, inasmuch as the Aldermen and Town Councillors are to be elected directly by the people, but the Bill leaves the election of the Lord Mayor in the hands of the National Government, and affords so many loop-holes for interference by it and Congress, that the new Municipality will hardly be a whit more independent than the old. Foreigners would never have got into their heads that the Lord Mayor of London comes second after Her Majesty in the order of British precedence, if either the Queen, Parliament, the Lord Chancellor, the Prime Minister, or the biggest Peer in the realm could say 'boo' to him, or had any hand in his nomination; but as yet we are only learning the alphabet of local self-government (or any other) in the River Plate. Another bit of news was about the new Capitol, to which we refer in our leader. There were also whispers, not loud but deep, of coming financial projects that will make the advocates of forced currency jump as far as they can out of their garments. All the leading papers are now in full cry after forced currency, and are certain to run into it and pull it down before long, Yoicks, tally-ho! Hark away! Who'll get the brush?

The latest news from Montevideo is that President Vidal is so utterly disgusted with the task of governing the 'ungovernable' Orientales that he intends to resign before the elections in November next.

A meeting of the shareholders in the new French Bank will be held this evening at the Bolsa, upstairs.

There was a dense fog over the city yesterday at daybreak, and the streets were as slippery as eels all day, as the sun got the worst of it in his tussle with the 'neblina,' and hardly appeared all day.

The *Nacion* says that the grocer, fireman and peon at the Boca who won the 50,000 patacons prize in the Caridad Lottery held a 'wake' over the winning ticket. They put it in the centre of a table at which they sat all night, their heads leaning on their hands, gazing at the scrap of paper that had made their fortune. Nothing in the way of a 'spree' was attempted. The grocer was sitting on his own counter, reading the paper, when he saw the good news, and he fell off in a faint at once. He seems to be of a rather shabby turn of mind, or he would have stood a dozen of gooseberry champagne for the wake. The fireman and his wife are going home to Europe, but the grocer and the peon intend to stick to their respective callings, and they are wise.

The march of improvement in the South is eloquently demonstrated by the application, just made by the Municipality at Bahia Blanca, for the site on which Fuerte Argentino stands, to cut up for 'chacras.' It is not so long since the Indians used to try the cutting-up process on everybody they could find in that neighbourhood.

There will be a 'romeria' at the Florida Gardens on Sunday in aid of the new Spanish Hospital. The songs and dances and music of old Spain will be the order of the day, and the spectacle will be a decidedly attractive one.

The Villarino, in her next trip, will take down 300 tons of telegraph material for the new line between Bahia Blanca and Patagones.

The Progreso Club is being arranged and decorated in the style of crack 'cercles' of Paris. A grand ball will be given there on the 25th inst.

It is said that intrigues are already beginning in the Interior in reference to a candidate to succeed General Roca as Chief Magistrate of the Republic. Nothing short of an earthquake like that at Chios can root the political madness out of this country, and we doubt if even that would do it.

Mr C. H. Witte has published the plot of the screaming farce 'Article Seven' now being performed at the Variedades. It can be had at the door of the theatre every night the piece is played, and will greatly assist the spectator in enjoying it, especially if he is weak in his French, as not a few people are.

Th French Company who are working the Cunapiru gold mines evidently mean business. They have raised their capital to 15 millions of francs, at least so a telegram from Paris says.

The receipts of the Italian Exhibition were 700,000 m|c, expenses 600,000 m|c including 100,000 in shares of 1 patacon each, taken up by all the Italians in town. The net profit is thus 100,000 m|c, and well earned it was.

Amongst yesterday's 'on dits' was one to the effect that the terminus of the Western Railway will be at once removed to the Plaza Once, as the National Government insists that the move be no longer delayed.

The remains of the late lamented Mrs Lezica de Acuña were interred yesterday in the Recoleta Cemetery. The elite of Buenos Aires society were present in the sad cortege, also a deputation from the Beneficencia Society, all ladies, who walked on each side of the coffin, from the chapel to the grave.

The Constitutional Committee of the National Senate consigned to the waste-paper basket a lot of old Bills, some of which would fetch money if Calle San Martin was the Rue Drouot. Amongst them is one dated June 7th, 1876, declaring Rosario the Capital of the Republic. 'Quantum mutatus ab illo.'

The School of Trades and Arts at Montevideo was burned down again yesterday, and ten thousand gold pats. vanished in smoke. There is suspicion of foul play, and the Director of the establishment has been placed under lock and key.

Rosario has determined to go in for a pyramid of solid Carrara marble in its principle plaza, to cost 37,000 francs. This is the way to encourage native industry, when there is such splendid marble in Cordoba and at Azul. We commend this case of 'lese-patria' to our colleague *El Industrial*, who will, no doubt, vigorously apply the last of its wrath to everybody concerned in the business.

The *Libertad* says that yesterday was a 'dies non' with the city police, only one robbery of $2,000, from Peter Scott. Poor Peter! We hope the thief will not forget to pay Paul: as usual, we suppose he got off scot free.

HELPER'S RAILWAY.

The latest American papers give the following :—

"Mr. Hinton Rowan Helper's modest little scheme for a longitudinal double steel-track railroad from Chicago clear through to the Straits of Magellan, via Mexico, Central America, Brazil, Patagonia, &c., ought not to be suffered to die of neglect in these days of powerful syndicates and splendid schemes for Government subsidies. He expects the several Governments to give him lands and cash on the same liberal terms with those which have been granted to the Canada Pacific Railroad and to the American transcontinental lines; and he calculates the road will be in full operation in less than twenty years from date—that is to say about the commencement of the ensuing century. Mr Helper, we believe, has not succeeded in figuring out the probable cost of his undertaking, the ordinary functions of the multiplication table being wholly unavailable for the purpose; but no matter how many billions may be required, let him by all means organize his company, issue his prospectus and float his stock. Paris will eagerly take it if New York stands aloof. He will never have so fine an opportunity as at present.

"The philosophic idiot whose fertile brain, some 200 years ago, entertained mankind with a benevolent plan for colonizing floating islands which, in addition to other wonderful advantages, in winter would enable their inhabitants to drift off with the tides into mild climates, and in summer to the north pole, if they so fancied, after all, was only a little ahead of his age. Had he lived in our time he would probably have been set down as as great a genius in his way as De Lesseps, or Eads, or Helper.

The gold market opened very hard to-day, but closed somewhat easier. We never remember a more critical moment for the market; at any instant the National Government may begin to draw exchange, which would completely turn everything, or the Provincial Bank may commence drawing in paper, which would also have an effect. Again we live in a period of projects, projects and nothing but projects are talked of on 'Change, and some project to correct the abuse of forced currency in a country such as this, that comparatively speaking owes nothing, will doubtless be carried out. The gold market hangs therefore not only on the probability of heavy exchange drawing by the Government but on the certainty of Congress passing some measure to correct the abuse. Spite of all this we noted more gold buyers to-day for June and July than formerly, and if yesterday the speculation was for a fall, to-day it certainly was for a rise.

Gold opened and closed for cash at 28.65; amount sold 78,918 pats. For the end of the month prices opened at 28.55 and closed at 28.60. For the end of June there was a very large business done, opening at 28.45 and closing at 28.40, and for July at 28.40. The sales of the day reached 726,918 pats. Cedulas ruled weaker, or perhaps more offered. sales cash, 97½, and for end of month at 97.

National Bank Shares ruled very firm and very active; the bulls ruled the market and, spite of all the nonsensical rumours and talk, the stock not only held its own but advanced; the market each day seems hardening, and those who sold out and are standing by watching the drop to buy will ultimately have to enter as buyers at present rates, and look for another jump up to make another haul. Close on 4,000 shares sold before 2 o'clock; prices cash opened at 93½ and closed at 93¾, and for end of month opened at 93¾, rose to 94¼ and closed at 94; for end of June closed at 94.

Emprestito Popular firm at 93, and one lot Municipal Bonds sold at 96.

National Bonds looked for, but none offering. Buyers for small lots have to purchase in the exchange shops at par.

At afterhours gold ruled less stringent and sellers for the end of the month were offering at 28.60. The heavy buyer of yesterday afternoon did not shake the room with his purchases to-day at afterhours.

It was rumoured on 'Change that there is a suspension in the saladero gremio, but as yet nothing certain is known.

In the wool plazas this morning Mr Casey sold 1000 arr. at 98, for which yesterday he could only get 95, and another sale made at 97. Wool men say that the news from London is not so unfavorable as represented, and there was more activity in the plazas this morning.

Mr Kemmis, of Santa Fe, and Mr Cernadas of fort Gainza, were welcomed on 'Change. The camps out by Gainza are splendid, Mr Guerrero is fencing some leagues at San Geronaro, south of Gainza, and driving out 6000 cows to the land, and one of our city merchants is starting an estancia out there with 5000 cows. This shows how fast that district is growing; before another year is about all the lands from Lincoln to Gainza will be polished with cattle and sheep estancias, fifty leagues further out than Venado Tuerto.

It is freely said that the Provincial Bank will reduce its interest rate and begin drawing exchange on London.

Exchange was done at 48¾ and 5.17, but not much passed. The least movement in wools would overasupply the market with bills.

At afterhours Nat. Bank Shares sold at 93¾ for 31st, and 100 at 94. Market closed firm.

Business in estancia lands shows a steady development; every day we hear of fresh sales of Government lands at Mr Rom's Central Land Office, a place rising to such importance that soon it will eclipse the Custom House.

Passengers arrived from West Coast say that the valiant Captain of the Huascar was only in bad Spanish called Grau; the hero's real name was McGrath, they dropped the Mc and called Grath, Grau; we have this on the most undoubted authority, and it is excusable to remind Dn Santiago Estrada of the fact.

Money rules very abundant and will probably next month rule still easier; we hear of National Government Bills at 8 and even 7½. It is indeed many years since National Government Bills were done at such rates.

To-morrow evening at 7.30 a provisional meeting is called to arrange about the new French Bank. Messrs Dussaud, Matthey, Sabatti, and Pommes sign the invitation.

Joh son Gaibisso & Co. chartered the German barque Claudia to load tallow in Paysandu for Channel f.o. at 28s.

Telegrams received in Montevideo from Paris state meeting held shareholders Cunapiru, gold mines, capital increased to 15 millions and all contracts approved.

Some 5000 ar. good wool sold yesterday in Montevideo at reserved price, also 1500 dry hides 24½-25 at 7.80, and another lot at 7.75.

600 pipes tallow, Santa Maria, at 18$, and 5000 qq. beef for Havannah at 50 rls. Also 16,000 qq. Euro's for Brazil and Cuba at 50, and late telegrams from Cuba give beef at 25 rls.

Yesterday President Roca abolished all quarantine in the Republic.

The article in the *Tribuna Nacional* this morning on the urgent necessity of abolishing Fiscal Privileges for banks in the Republic attracted considerable attention on 'Change, and universal approbation. Every class in the community is interested in having this abuse swept away as soon as possible, as it eats into the very heart of trade and business and gives rise to innumerable evils as bad as itself. The following project of law is suggested by our colleague, but is generally attributed to the Minister of Hacienda.

Art 1—Loans of any kind advanced by banks after the promulgation of this present Law shall not enjoy any fiscal privileges whatever.

Art. 2—Loans advanced before the promulgation of this present Law shall enjoy fiscal privileges until they are paid off.

Respecting the Calvo project we hear that the National Government is opposed to any such step, and that the real project to abolish the 'curso forzoso' which is coming on the market is to authorise the Government to assume the responsibility of paying all the specie notes of the Provincial Bank in specie as quickly as the resources of the Government will allow; to accept said notes as gold in all the National departments. The Bank will then only have to look out for its 300 millions of paper money, and the gold it has on hands 5½ millions, and the Bonds it has to receive from the Provincial Government, will be amply sufficient to enable the Bank to reopen its 'Oficina de Cambios'. This is the best scheme as yet, and we believe will live and triumph.

The following late wool advices from the United States are most important :—

"The Boston Wool Market—There is no very special change in the tone of domestic wool since our last, when easiness and an unsettled market were noted. Holders as a rule continue to be free sellers and prices are irregular. Parties, however, who have really choice wools are not disposed to sacrifice them, while those having indifferent or undesirable lots are disposed to press them for sale. Prices, judged by the sales given below, are rather irregular on fleece wools, but the range may be ascribed more to a difference in the standard of quality and classification than to any marked disagreement in values. At present, manufacturers continue to buy very sparingly and without confidence, and dealers are disposed to meet the situation so far as they can and accept reasonable offers to a certain amount. If lower offers would be accepted the movement at the present time would be much more liberal than it is, as the number of buyers in the market is quite large. The sales of domestic foot up over a million and a half pounds, which is about the same as for each of the past few weeks. The principal operations have been in washed fleeces. There has been comparatively little doing in Texas and Territorial, but a very fair movement of both fall California and pulled wools.

"Foreign wools have been comparatively quiet this week, with small sales of Australian, Montevideo, Cape, carpet and black Spanish. Reports from Europe are that there is a better feeling there in domestic wools.

"The sales of the week are 1,579,200 lbs. domestic and 104,600 lbs. foreign, against 1,211,300 lbs. domestic and 1,950,700 lbs. foreign a year ago. The receipts comprise 2,924 bales domestic and 70 foreign."

Pormenores

Estos campos distan solo 5 leguas de las colonias Sanchales y Espin [suizo] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr Pedro Palacios, Banc de Londres, Coronel Lacueva, Coronel Jabon. Lindan pues con los Sres W Pasto y Ca, Dr Lawson, Meyer, Oxziza, Duchiwitz, Altgelt, Napp, Loissoau, Bonorme, Newton, Mulhall y otros, que adquieren en la misma forma hacen diez anos.

La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.

Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.

Hay campos linderos, que se han vendido (y mostraremos el certificado) a 3000 $fts. la legua.

En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 208 $fts de solo 20 cuadras, luego la legua ha producido ya mil onzas de oro, en 80 concesiones.

Los campos estan mensurados judicialmente perfectamente amojonados con grandes postes de nanduby.

Hoy dia, la casa bancaria de los Srs Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del emprestito a razon de 1500 $f. por legua, y estos son superiores y mas cerca de la capital.

Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.

Por informes, folletos, planos etc, a nuestra casa San Martin 51.
